

REMARKS

In the office communication, dated August 28, 2009, in the referenced application, it was stated that the amendment filed May 13, 2009, was not fully responsive. It was the Examiner's position that the added elements were directed to an invention distinct from the one originally claimed.

In response, applicants are filing for a one-month extension of time in the present application, and concurrently filing a continuation application to the present application, containing the claims as set forth in the May 13, 2009, response.

Should it be of any assistance with this filing, the Examiner is invited to contact the undersigned.

Respectfully submitted,

Lisa Kimes Jones
